Skills

React.js , Redux , JavaScript, HTML5 , CSS3, SQL, postgresSQL , Python , Flask , Express.js , Node.js , Git , Npm, Object-Oriented Programming

Projects

Lets Hang!

[live site](#) | [github](#)

HTML5 , JavaScript , CSS3 , Python , Flask , React.js , Redux , postgresSQL , SQL

A dynamic social network tailored to rock climbing enthusiasts to facilitate community building and event planning

- Ensured secure user authentication using Flask-Bcrypt for password encryption and React Router for authorized feature control and user privacy
- Designed aesthetically pleasing modals using React component architecture to enhance user experience and optimized load times

Petsy

[live site](#) | [github](#)

JavaScript , React.js , Redux , Python , Flask , postgresSQL , CSS3

A robust clone of Etsy enabling customers to browse, purchase and review unique products

- Utilized Python Flask and React JS to build a robust full-stack web application, skillfully passing data from the back-end to the front-end for seamless user experiences
- Collaborated with a team of developers to successfully complete the Petsy project, to build a fully functional e-commerce platform for pet lovers
- Optimized database queries using SQLAlchemy ORM to reduce page load times and enhance website performance

CareBnb

[live site](#) | [github](#)

JavaScript , React.js , Redux , Express.js , Sequelize , postgresSQL , CSS3

A dynamic AirBNB clone empowering users to explore, book, review, and share unique accommodations

- Built a full-stack Airbnb clone using Express.js and Sequelize ORM for data management
- Troubleshoot and resolved various challenges throughout the development process, such as database schema design, API endpoint configuration, and deployment to cloud hosting services

Experience

Technician | October 2020 - August 2022

BKBtech

- Skilled in problem-solving and continuous learning to effectively diagnose and repair electronic devices
- Demonstrated ability to efficiently manage and organize electronic components to maximize productivity and ensure excellent customer service.

Education

App Academy | Fall 2022 | Remote

Immersive software development course with focus on full stack web development

San Jose State University | Spring 2021 | San Jose, CA

Bachelor of Arts in Linguistics, Minor in Business

- Applied knowledge in linguistics to find patterns in coding languages, facilitating the learning of new languages and technologies at App Academy.
- Demonstrated effective communication skills while collaborating with cross-functional teams to develop and implement solutions, and gained a deep understanding of diverse coding techniques and approaches.
